Summary

Analytical and motivated aspiring Data Analyst with hands-on project experience in **data cleaning, exploratory data analysis (EDA), statistical modeling, and data visualization**. Proficient in industry-standard tools including **Python (Pandas, NumPy, Seaborn, Matplotlib), SQL, Excel, Power BI, and Tableau**. Completed multiple projects involving **dashboard creation, customer segmentation, data classification, and automated reporting**. Strong foundation in **data wrangling, business intelligence, and data storytelling**, with excellent problem-solving and communication skills. Eager to contribute to data-driven decision-making through a dynamic data analyst internship

Experience

- ✓ **Campus Ambassador**
GirlScript Summer of Code (GSSoC) – GirlScript Foundation **June 2025 – Present | Remote**
Selected as a Campus Ambassador for GSSoC, a renowned national open-source initiative.
 - Acted as the liaison between GirlScript and university peers to promote awareness of open-source contributions.
 - Organized sessions and actively engaged students to participate in real-world software development projects.
 - Advocated for diversity in tech and encouraged beginner-friendly participation in open-source.
- ✓ **Project Developer & Team Leader – DIPEX 2024 Participant** **2024 | Maharashtra**
Agricare: The Farming App | DIPEX – State Level Project Competition & Exhibition
Led a team in the development of Agricare, an Android-based application aimed at empowering farmers through tech-driven solutions.
 - Responsible for system design, UI/UX, backend API integration, and team coordination.
 - Presented the project at the prestigious **DIPEX 2024** event, showcasing its potential impact on agricultural communities.
- ✓ **Android Development Intern**
Self-Driven Internship / Organization Name (Optional) **May 2023 -July 2023**
 - Developed and tested Android applications using **Java, Android Studio, and RESTful APIs**.
 - Collaborated with mentors to design user-friendly interfaces and implement responsive features.
 - Gained expertise in **UI/UX design, debugging, and the Android app lifecycle**.

Skills

- Programming Languages:**
Python, Java, C,HTML,CSS,PHP,
- Database Management:**
MySQL, SQLite,MongoDB,
- Web & App Development:**
Android Studio, Java (Android), XML, REST APIs
- Open Source & Community Involvement:**
GSSoC Contributor & Campus Ambassador, Community Engagement, Event Promotion
- Data Analysis & Visualization:**
Excel, Python (Pandas, Matplotlib, Seaborn), SQL, Tableau
- Tools & Platforms:**
Git, GitHub, VS Code, Google Colab, Jupyter Notebook, Nodejs , Wordpress , React.

Education

- **Dr. Babasaheb Ambedkar Technological University, Lonere**
Bachelor of Technology (B.Tech) in Artificial Intelligence and Data Science **2024 – 2027 |Pursuing**
- **Maharashtra state board of technical education**
Diploma in Information Technology **2021 – 2023|Completed**

Special Achivment

- Participated in **16+ Paper and Poster Presentation Competitions** across various domains including technology, innovation, and engineering.
- Secured **10+ awards** at **national, institute, and district-level competitions**, showcasing strong research, communication, and presentation skills.
- Recognized for originality, technical depth, and clarity in conveying complex ideas to diverse audiences.
